Net Installation Instructions

1. Start by spreading the net behind the goal. This can be done with one person but two people make the job easier. Using a ladder, start at the top corner, bring the net forward to the top fastener below the junction of the crossbar and the upright.

2. Attach the net by sliding the orange anchor cord into the hooks of the square plastic fasteners as shown here.

Repeat this step across the entire length of the upper crossbar.

3. Repeat this step on both of the uprights, threading the orange anchor cord into the hooks of the fasteners.

4. Pull the net tight and complete the net installation by attaching the anchor cords to the fasteners on the back crossbar.

Remember, you can always call us at 1-888727-7627 if you have a problem!
