Features and Benifits

Aluminum Construction

- Scoremaster uses high strength alloy Aluminum for all of our products.
- 1/3 the weight of steel.
- Will not corrode.
- Lower maintenance with a longer life expectancy.
- Easy to move.
- Reduces field damage.

Unmatched Engineering

- Scoremaster has design features not found in other products.
- Aerospace quality TIG welded construction. Welding is stronger and vandal resistant.
- Oval tube profile net racks on SM-DM1200 to SM-DM2400 series.
- Large section extrusions.
- Custom shapes for high strength.
- Slide and bolt together connections.
- Goal ends are welded solid and won't work loose over time.
- Less than .001 percent product failure since 1997.

Safety

- Scoremaster goals meet all safety standards when safety instructions (affixed to each goal are followed.)
- Smooth profiles reduce injuries.
- Permanently attached net fasteners have a smooth profile.
- Non protruding bolts or fasteners prevent injuries from collisions.

Durable Powder Coat Finish

- Baked-on powder coat finish is optional on all goals.
- Powder Coating is done in house at Scoremaster.
- In house powder coating ensures full quality control and the best protective coating available - for visibility, low maintenance, beautiful appearance and weathering protection.

Customer Support

- 5 year warranty, product documentation, extensive dealer support and internet support.
- Our sales are backed by the most experienced team of dealers in North America.
- Help is always there when you need it.

Experience

- Scoremaster has over 25 years of goal building experience and a dedicated engineering department.
- We were the first manufacturer to address potential problems and safety issues.
- Extensive product testing and proven designs are a Scoremaster trademark.
- Scoremaster is owned by Professional Components Ltd. which manufactures specialized equipment for military and coast guard.
- The same care goes into all products whether it is for the military or your local soccer field, we know having the right equipment is mission critical.

Quality Control

- Scoremaster is constructed to rigid in house quality control procedures in the spirit of ISO9000 to maintain high quality and product consistency.

“Scoremaster is the highest quality goal available on the market.”
