

SCOREMASTER

The Ultimate Aluminum Sports Goals

Aluminum Construction

- 1/3 the weight of steel.
- Will not corrode.
- Lower maintenance and longer life expectancy.
- Easy to move.
- Reduces field damage.

Engineering Excellence

- High strength TIG welded construction.
- Large section extrusions and custom shapes for structural strength.
- Slide and bolt together connections.

Safety

- Scoremaster goals meet all safety standards when safety instructions (affixed to each goal) are followed.
- Permanently attached net fasteners have a smooth profile, and non protruding bolts and fasteners help prevent injuries.

Quality Control

- Constructed to rigid in-house ISO9000 standard quality control.

Durable Powder Coat Finish

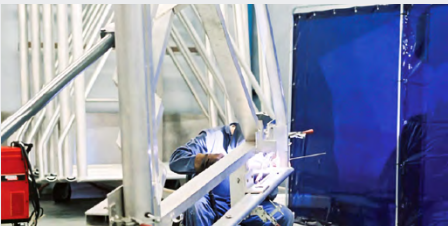

- Baked-on Powder Coating is done in-house.
- Excellent visibility, low maintenance, high weather-resistance and attractive appearance.

Customer Support

- Five-year warranty.
- Extensive dealer support.
- Online help desk.

Experience

- Scoremaster has over twenty-five years of goal-building experience and a dedicated engineering department.
- Extensive product testing and computerized design.
- Scoremaster is owned by Professional Components Ltd., manufacturers of Shockwave Seats for Military, Coast Guard and recreational boaters.

Mini Soccer Goals | For Under 6 and Under 8

SM-DM600 • SM-DM1000

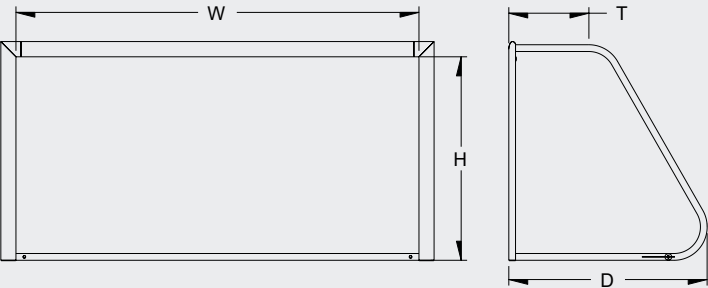

Scoremaster mini soccer goals for U-6 and U-8 deliver professional-grade strength and quality, with TIG welded aluminum construction built to withstand years of active play.

Specifications

- One-piece, smooth profile, TIG welded goal ends
- Two goals per set. Each goal ships broken down into four easy-to-assemble major components
- Weld joints are reinforced with a doubler plate for extra strength
- Uprights and upper crossbars are made from 4 ½" X 2" D profile x .100 to .156" variable wall, oval, high strength, aluminum tube
- Deep Net Racks are made from 2" x 3" oval tube x .156" wall (SM-DM1000) and 1.9" OD x .145" wall (SM-DM600), high strength, aluminum pipe for strength and stability
- Auger style ground anchors
- Tether cables for anchoring and storage
- Tamper-resistant stainless steel hardware
- Rear crossbars are made from 2" x 3" x .156" wall (SM-DM1000) and 1.9" OD x .145" wall (SM-DM600) high strength oval aluminum tube for strength and stability
- This goal is exempt from the requirements of ASTM F2673. Goals exceed all international safety and games standards. All movable goals must be anchored
- Available in white powder coat or aluminum finish
- Five year warranty

The Only TIG Welded Goals in the World

Options

- SM-GT1000 - Permanent Goal Tether – embeds in field for quick anchoring
- SM-GC - Goal Cart System – Four carts per set with two small two-wheel carts slip under goal for easy moving
- SM-DM-WHEEL – Retractable fixed wheel system. Four per set, two or four wheels per goal
- Nets available in heavy-duty (white) or regular (orange)

Options & Accessories

SM-DM-WHEEL Wheel System
This is a bolt-on retractable wheel system. Four wheels and retractors are included in the package.

SM-GC Goal Cart
This is a bolt-on or slip-on system. Four wheels slide under the goal and can be removed after the goal is moved. One set of four will move multiple goals as they are not permanently attached.

SM-SQ1000 and SM-SS1000 Net Fasteners
Contemporary plastic square design net fasteners or the original stainless steel net fasteners attach nets securely to the posts quickly and easily. Installation rivets included.

SM-GT1000 Goal Tether
This is a permanent goal tether that can be buried into the field for quick anchoring of goals. The Goal Tether allows you to remove the goal when not in use or lock it down when in use.

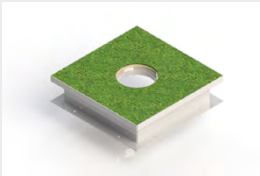

SM-R1000-PAD or SM-FB-PAD Football or Rugby Pads
Rugby/Football goal pads prevent injuries to players and slip over the goal base in minutes.

SM-FH1200-WHEELS Field Hockey Wheel System
Field Hockey wheels are permanently attached and allow Field Hockey Goals to be moved easily.

SM-Pennant Wind Direction Pennant
Wind Direction Pennants can be attached to the goal by carabiner.

SM-FB-1000 Mounting box
Made to mount Football goals on artificial turf. It is just one example of the many custom mounting solutions that Scoremaster can provide.

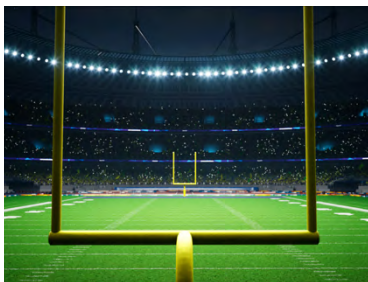

SM-VELCRO Velcro fasteners
Velcro net fasteners are standard on all goals. Sold twelve per package. Teamed up with our stainless steel net fasteners — installing and removing nets is a breeze.
